

PETRACKR®

Veterinary Blood Glucose Monitoring System

- Rapid blood glucose monitoring for cats and dogs
- Fast, accurate, and compatible with the PETRACKR® app to easily record, monitor, and report results
- Based on one of the market-leading human blood glucose products

Contact email:
PETRACKR@universalbiosensors.com

The PETRACKR® veterinary blood glucose monitoring system is designed for at-home and/or veterinary professional monitoring of blood glucose in cats or dogs. The prevalence of diabetes among cats and dogs has increased in recent years. Human blood glucose monitoring systems are not recommended for blood glucose monitoring in cats and dogs.

Manage your pet's diabetes with the PETRACKR® app and the PETRACKR® Blood Glucose Analyzer to monitor your pet's blood glucose measurements and other lifestyle factors. The PETRACKR® app connects to the PETRACKR® analyzer via bluetooth, and allows you to create pet profiles and track their blood glucose measurements directly from your PETRACKR® analyzer. The PETRACKR® app allows you to record, track and log your pet's activities including insulin doses, meals and exercise. Simply download and share your pet's results with your veterinarian through email. The PETRACKR® app works seamlessly with the PETRACKR® Blood Glucose Analyzer and Test Strip to provide human quality care to your furry friend.

Who are Universal Biosensors?

Universal Biosensors Inc (UBI) is a global biosensor company and a world leader in electrochemical cell technology. UBI's ambition is to utilize its patented biosensor technology to develop a diverse range of biosensor test strips used in our hand-held portable analyzers; for cost effective, effortless, and accurate detection of analytes of interest, within many industries including human health, animal health, environmental, and agriculture. UBI is a USA Delaware company listed on the Australian Securities Exchange (ASX:UBI) and operates from its head office, manufacturing facility, and research laboratory in Melbourne, Victoria, Australia.
